FoR Allocation−Share Scenarios for 2030
Three historical reference−period assumptions
Engineering & Technology
Earth & Environmental Sciences
Physical Sciences
Chemical Sciences
Unclassified & Operational
Other / Unclassified
Biological & Agricultural Sciences
Mathematics & Computing
Medical & Health Sciences
Social Sciences, Humanities & Built Environment
0%
10%
20%
30%
Assumed share of projected overall HPC demand
Reference period
Earlier (2014–2020)
Recent (2021–2026)
Longer−term (2014–2026)
Shares are normalised observed−year means; classification, coverage and missing−category limitations apply. Unclassified categories are not assumed equivalent.
